

Addition & Subtraction - Daydream Education

Price: £1.49

This is one of several apps offered from Daydream education. We like the fact that these apps provide a balance of teaching and instruction, opportunities to practise key skills and quizzes to test the learners knowledge. They cater for a range of levels and increasingly complex operations. This app, as the name suggests, focuses on... Hopscotch

Price: Free

This is another great free app for teaching children the basics of programming. It has been inspired by Scratch and has a similar look with blocks which are fitted together to create sequences. Children with support in KS1 will be able to access it and those with some experience in KS2 should fly along! [Read More](#) [Apple](#), [ICT](#), [Key Stage 1](#), [Key Stage 2](#) | [Leave a comment](#) | [Read More...](#)

Daisy the Dinosaur

Price: Free

This free app is a great introduction to coding for younger pupils. It takes them step by step through simple instructions, gradually building up sequences. From here, children can move onto a variety of other coding apps and then onto classic computing programmes such as Scratch.
[Apple, Early Years / Foundation, ICT, Key Stage 1 | Leave a comment | Read More...](#)

The Human Body by Tinybop

Price: £1.99

This is a fabulous way to investigate the systems of the human body. Your children can interact with the organs and see how they relate to each other. They will get to explore the basic human anatomy through the skeletal, muscular, nervous, circulatory, respiratory, and digestive systems. This app also makes use of the camera... [Read More](#)
