

**What Parents
have said
about our
School**

2014 – 2015

**“A fantastic caring
school, with the
development of
children at the heart.”**

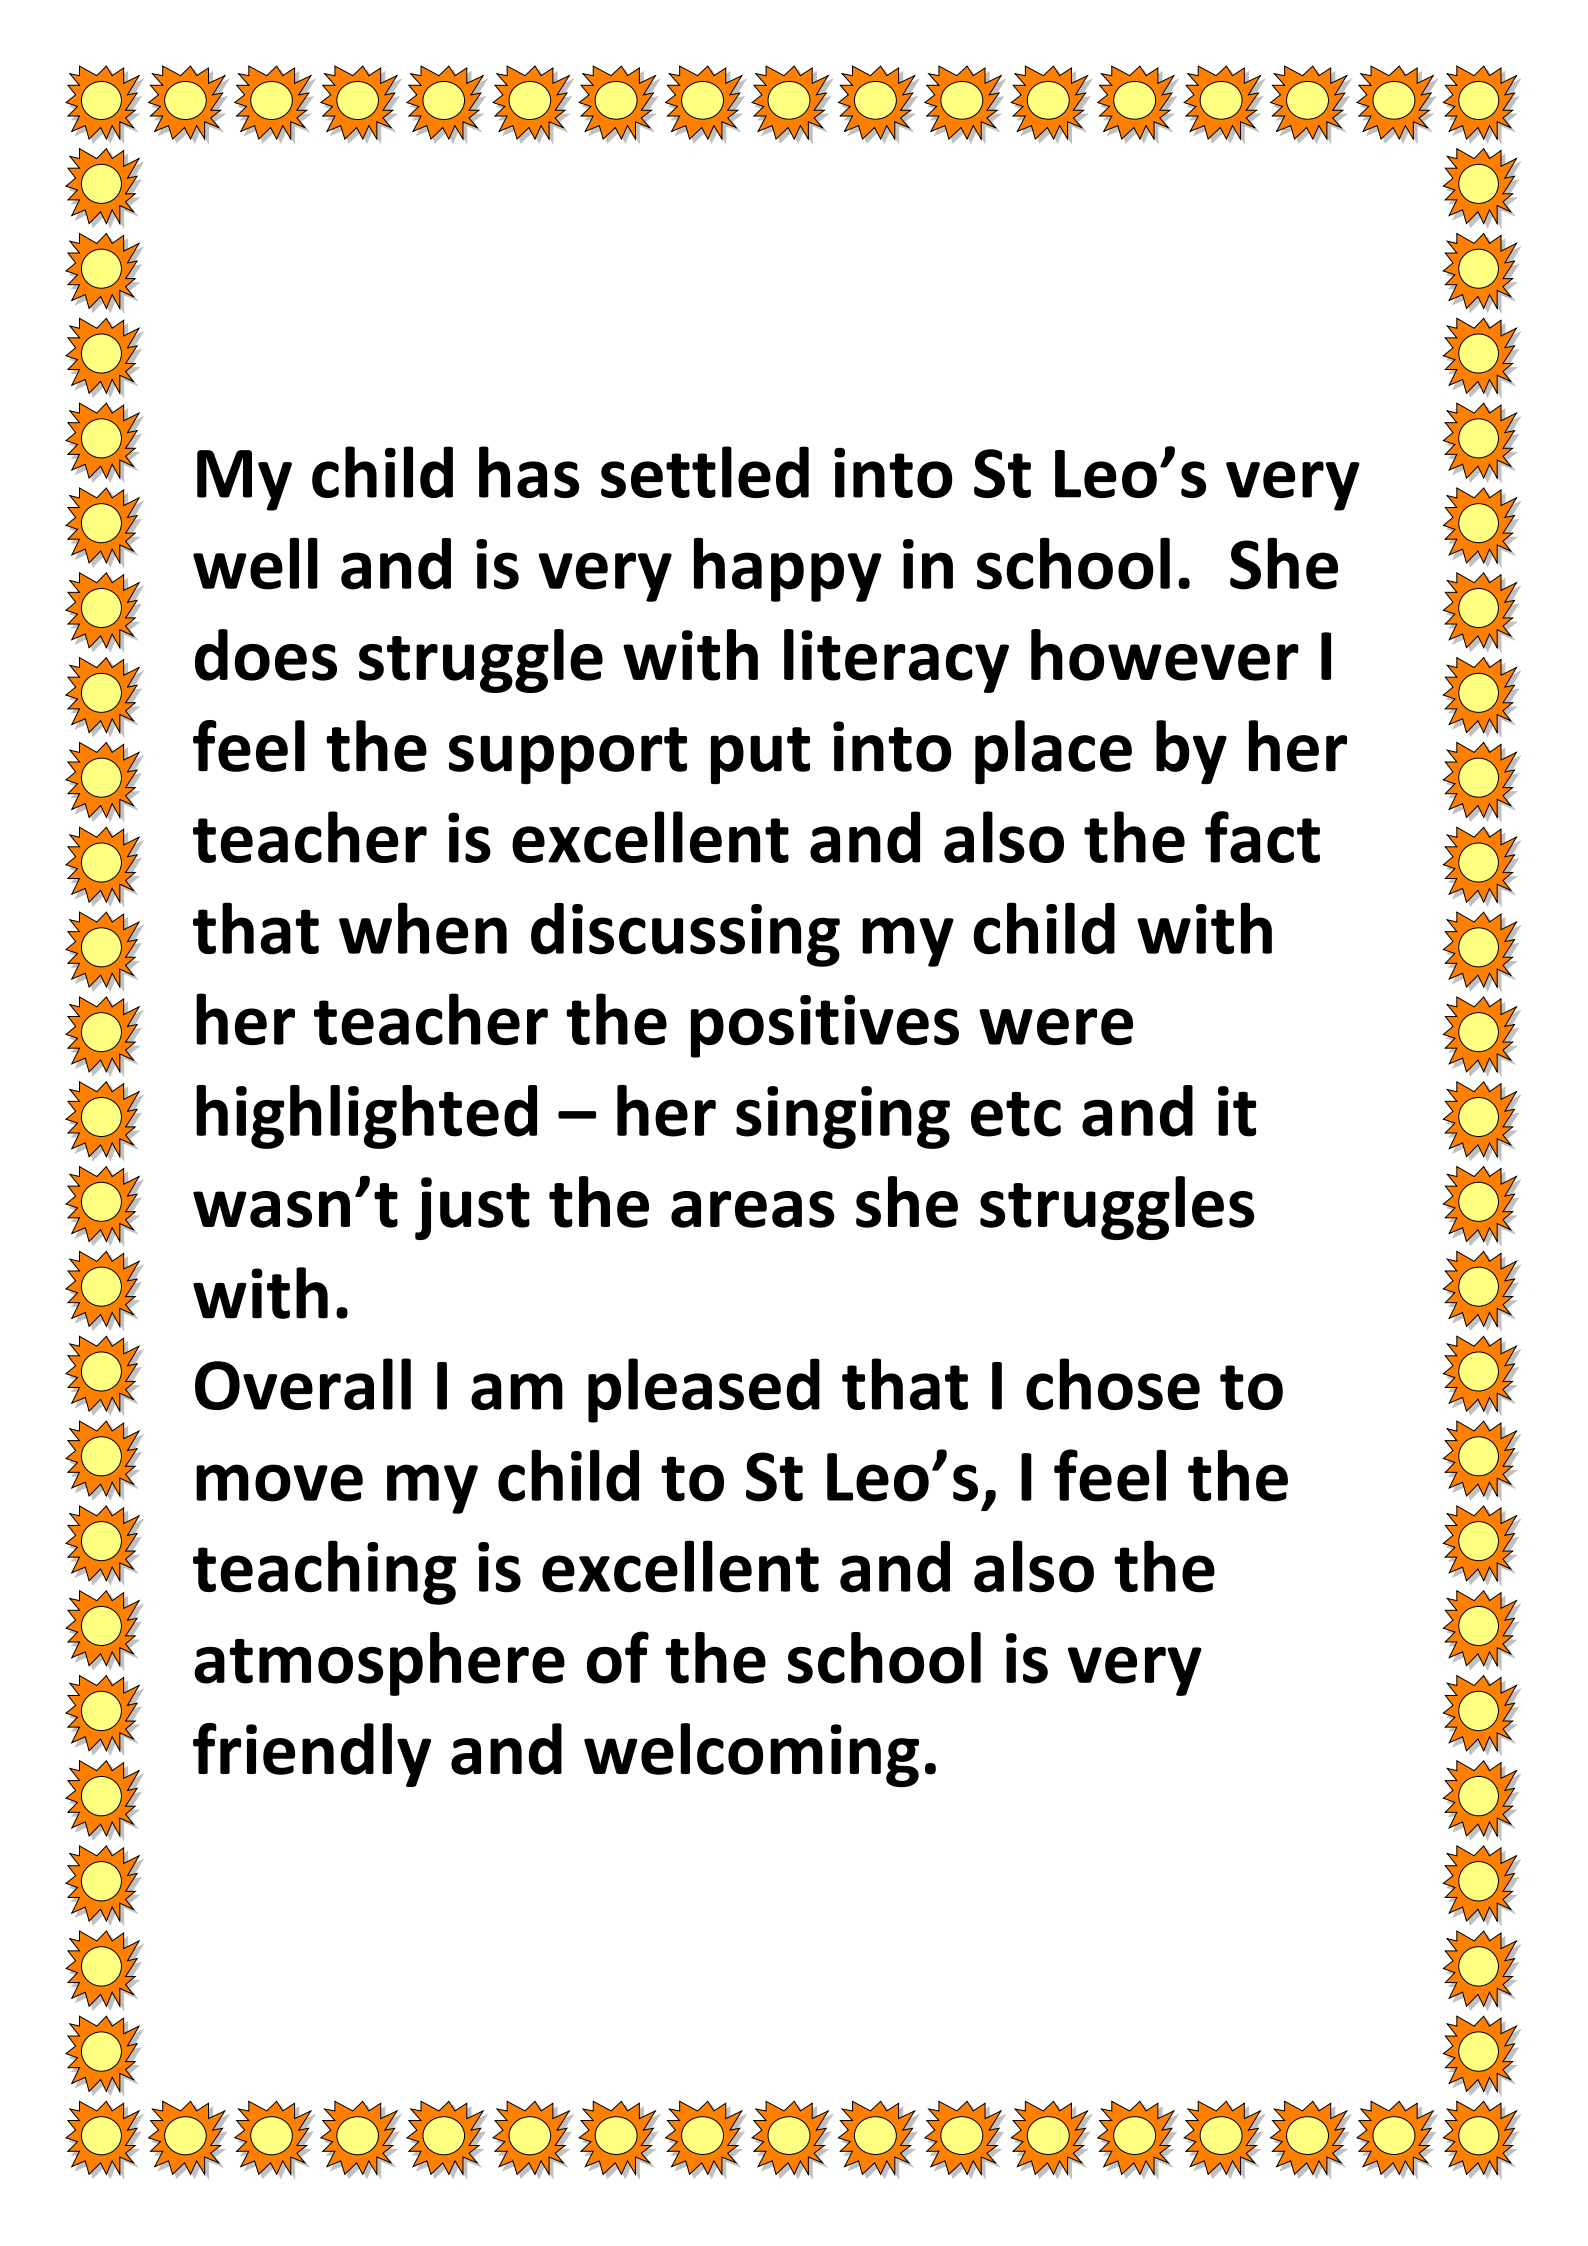

**Both of our children have
been welcomed into school.
They are both happy to come
to school.**

**Any concerns I have had have
been dealt with immediately.**

**My daughter in Year 1 has
made excellent progress in all
areas, but most importantly,
her confidence.**

**We look forward to seeing
our daughter in Nursery
progress through the school.**

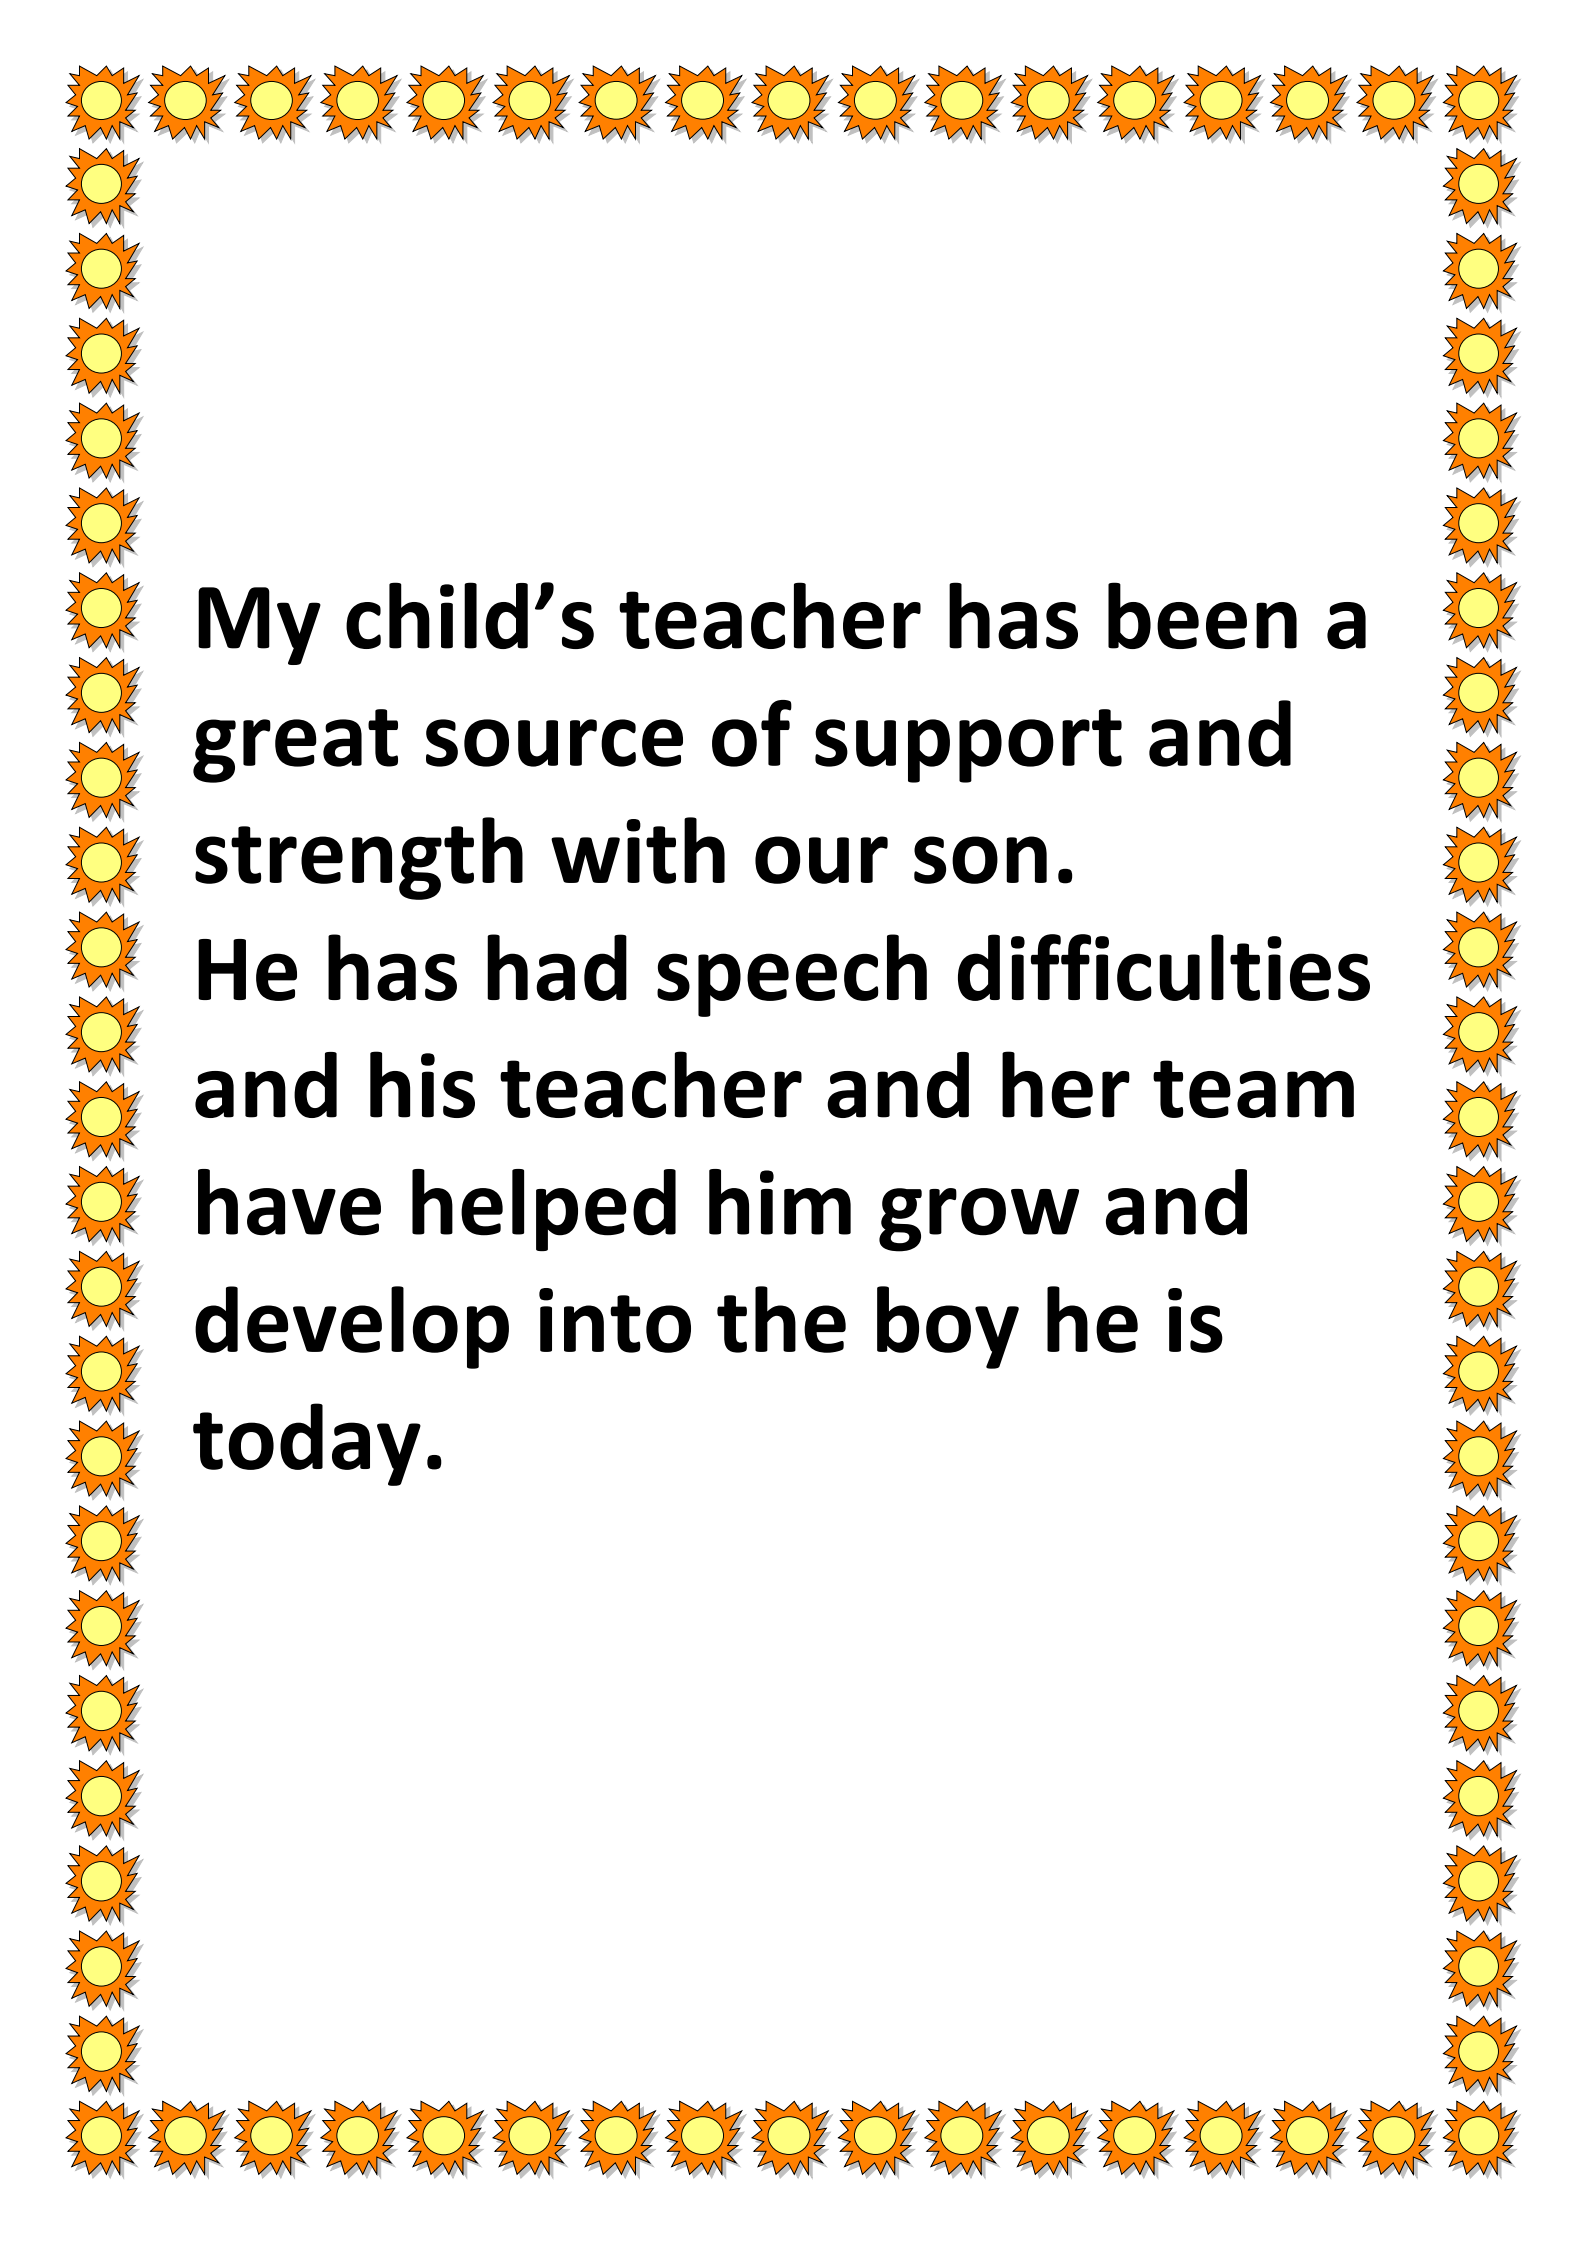

My child has settled into St Leo's very well and is very happy in school. She does struggle with literacy however I feel the support put into place by her teacher is excellent and also the fact that when discussing my child with her teacher the positives were highlighted – her singing etc and it wasn't just the areas she struggles with.

Overall I am pleased that I chose to move my child to St Leo's, I feel the teaching is excellent and also the atmosphere of the school is very friendly and welcoming.

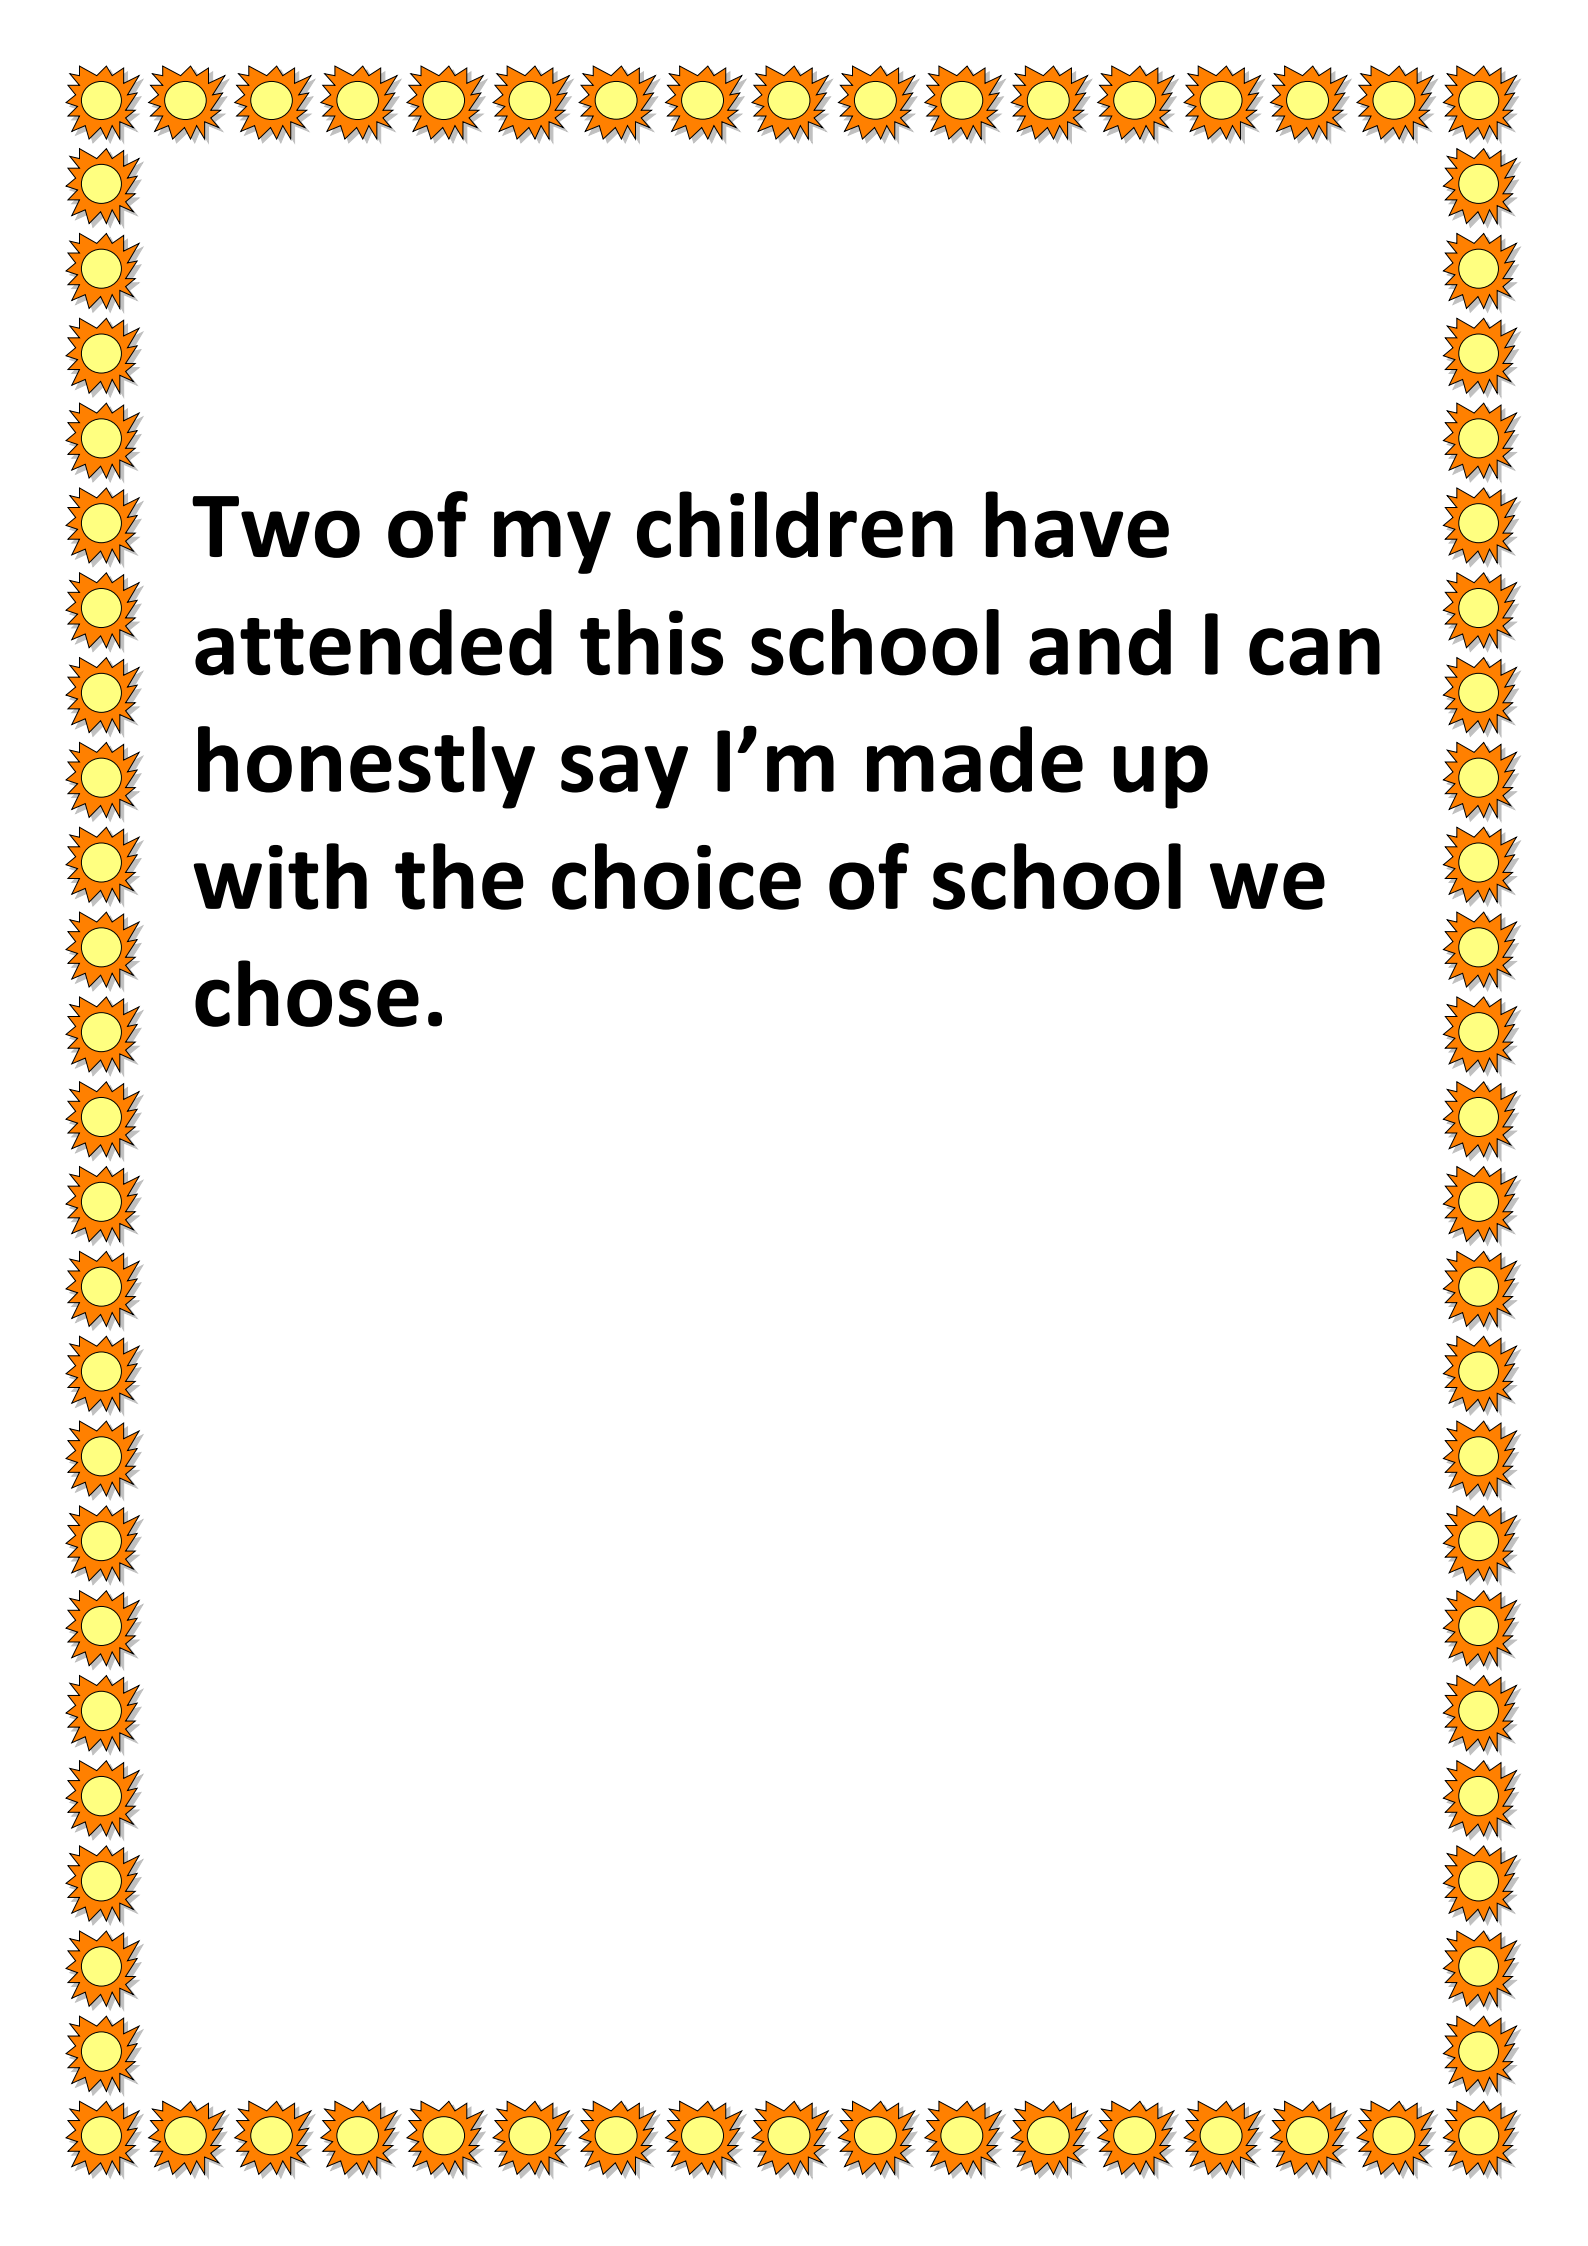

My child has enjoyed his first year at St Leo's in Reception class. I feel he has made good progress and this is down to the high standard of teaching provided. He is looking forward to starting Year One.

I think St Leo's is a lovely school with a really good welcoming feel.

My child's teacher has been a great source of support and strength with our son.

He has had speech difficulties and his teacher and her team have helped him grow and develop into the boy he is today.

**Two of my children have
attended this school and I can
honestly say I'm made up
with the choice of school we
chose.**

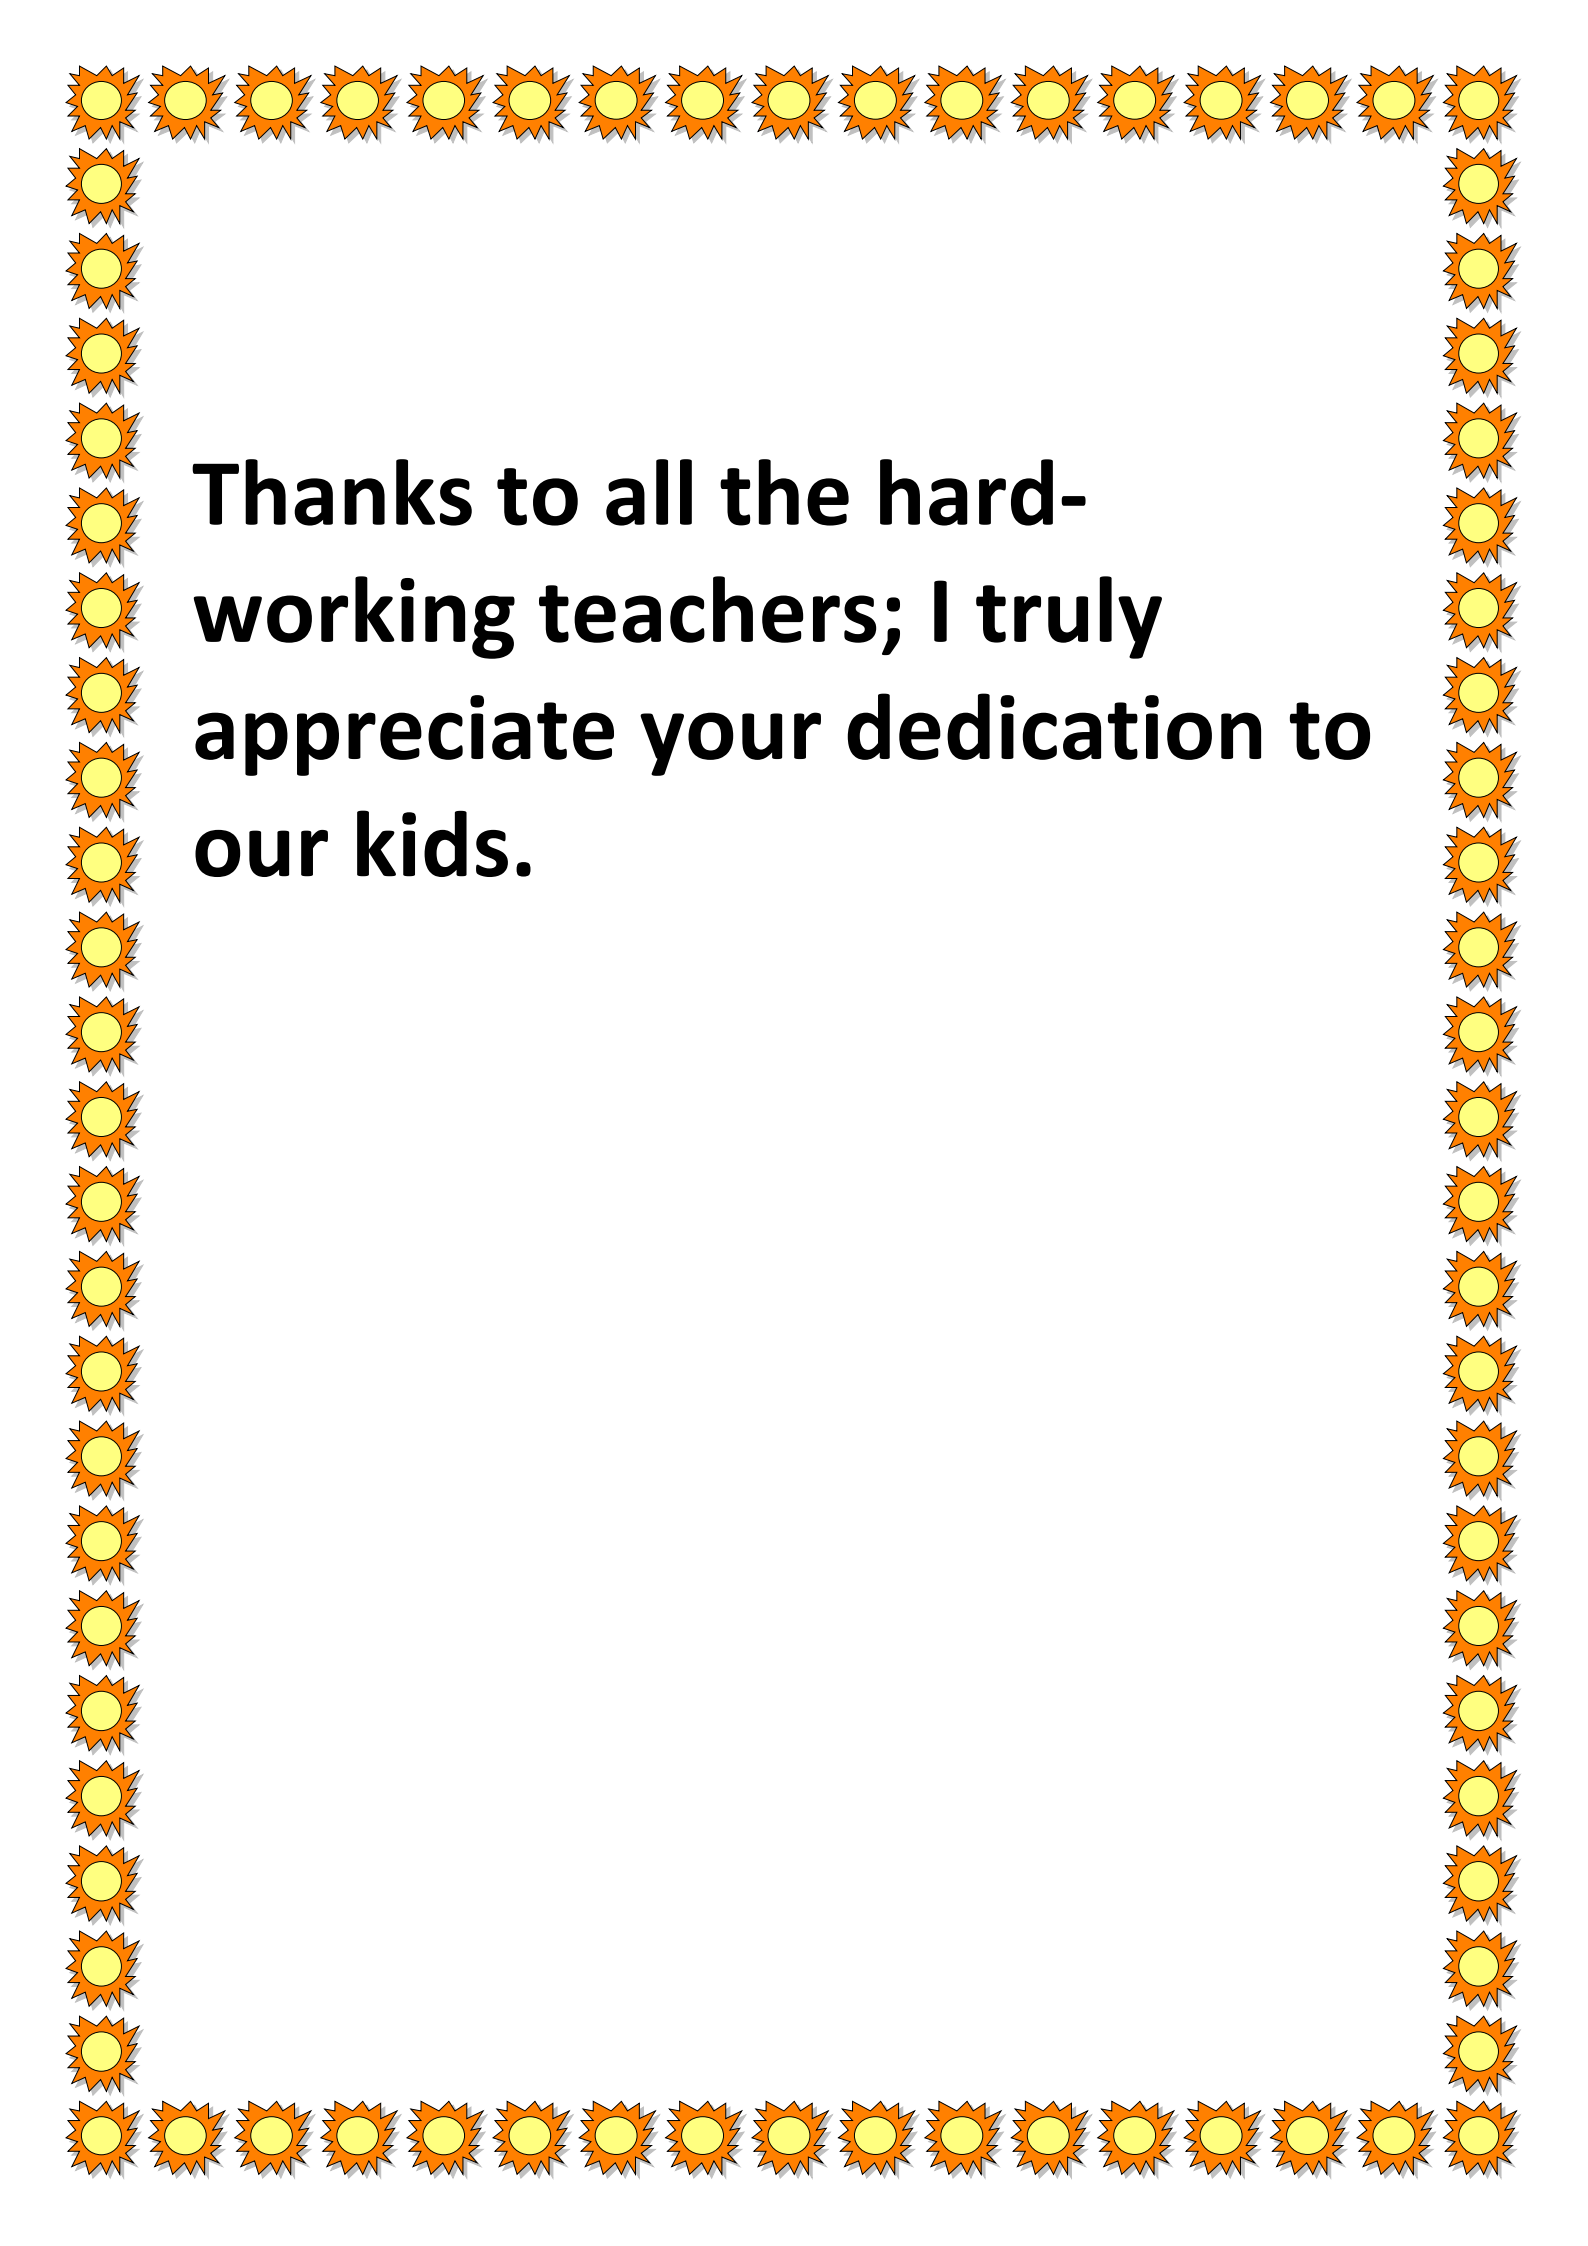

I am extremely happy with the school and the standard of education my child has received this year.

I have nothing but positive things to say about her teachers. They are always welcoming, polite and friendly when we drop off or collect our daughter.

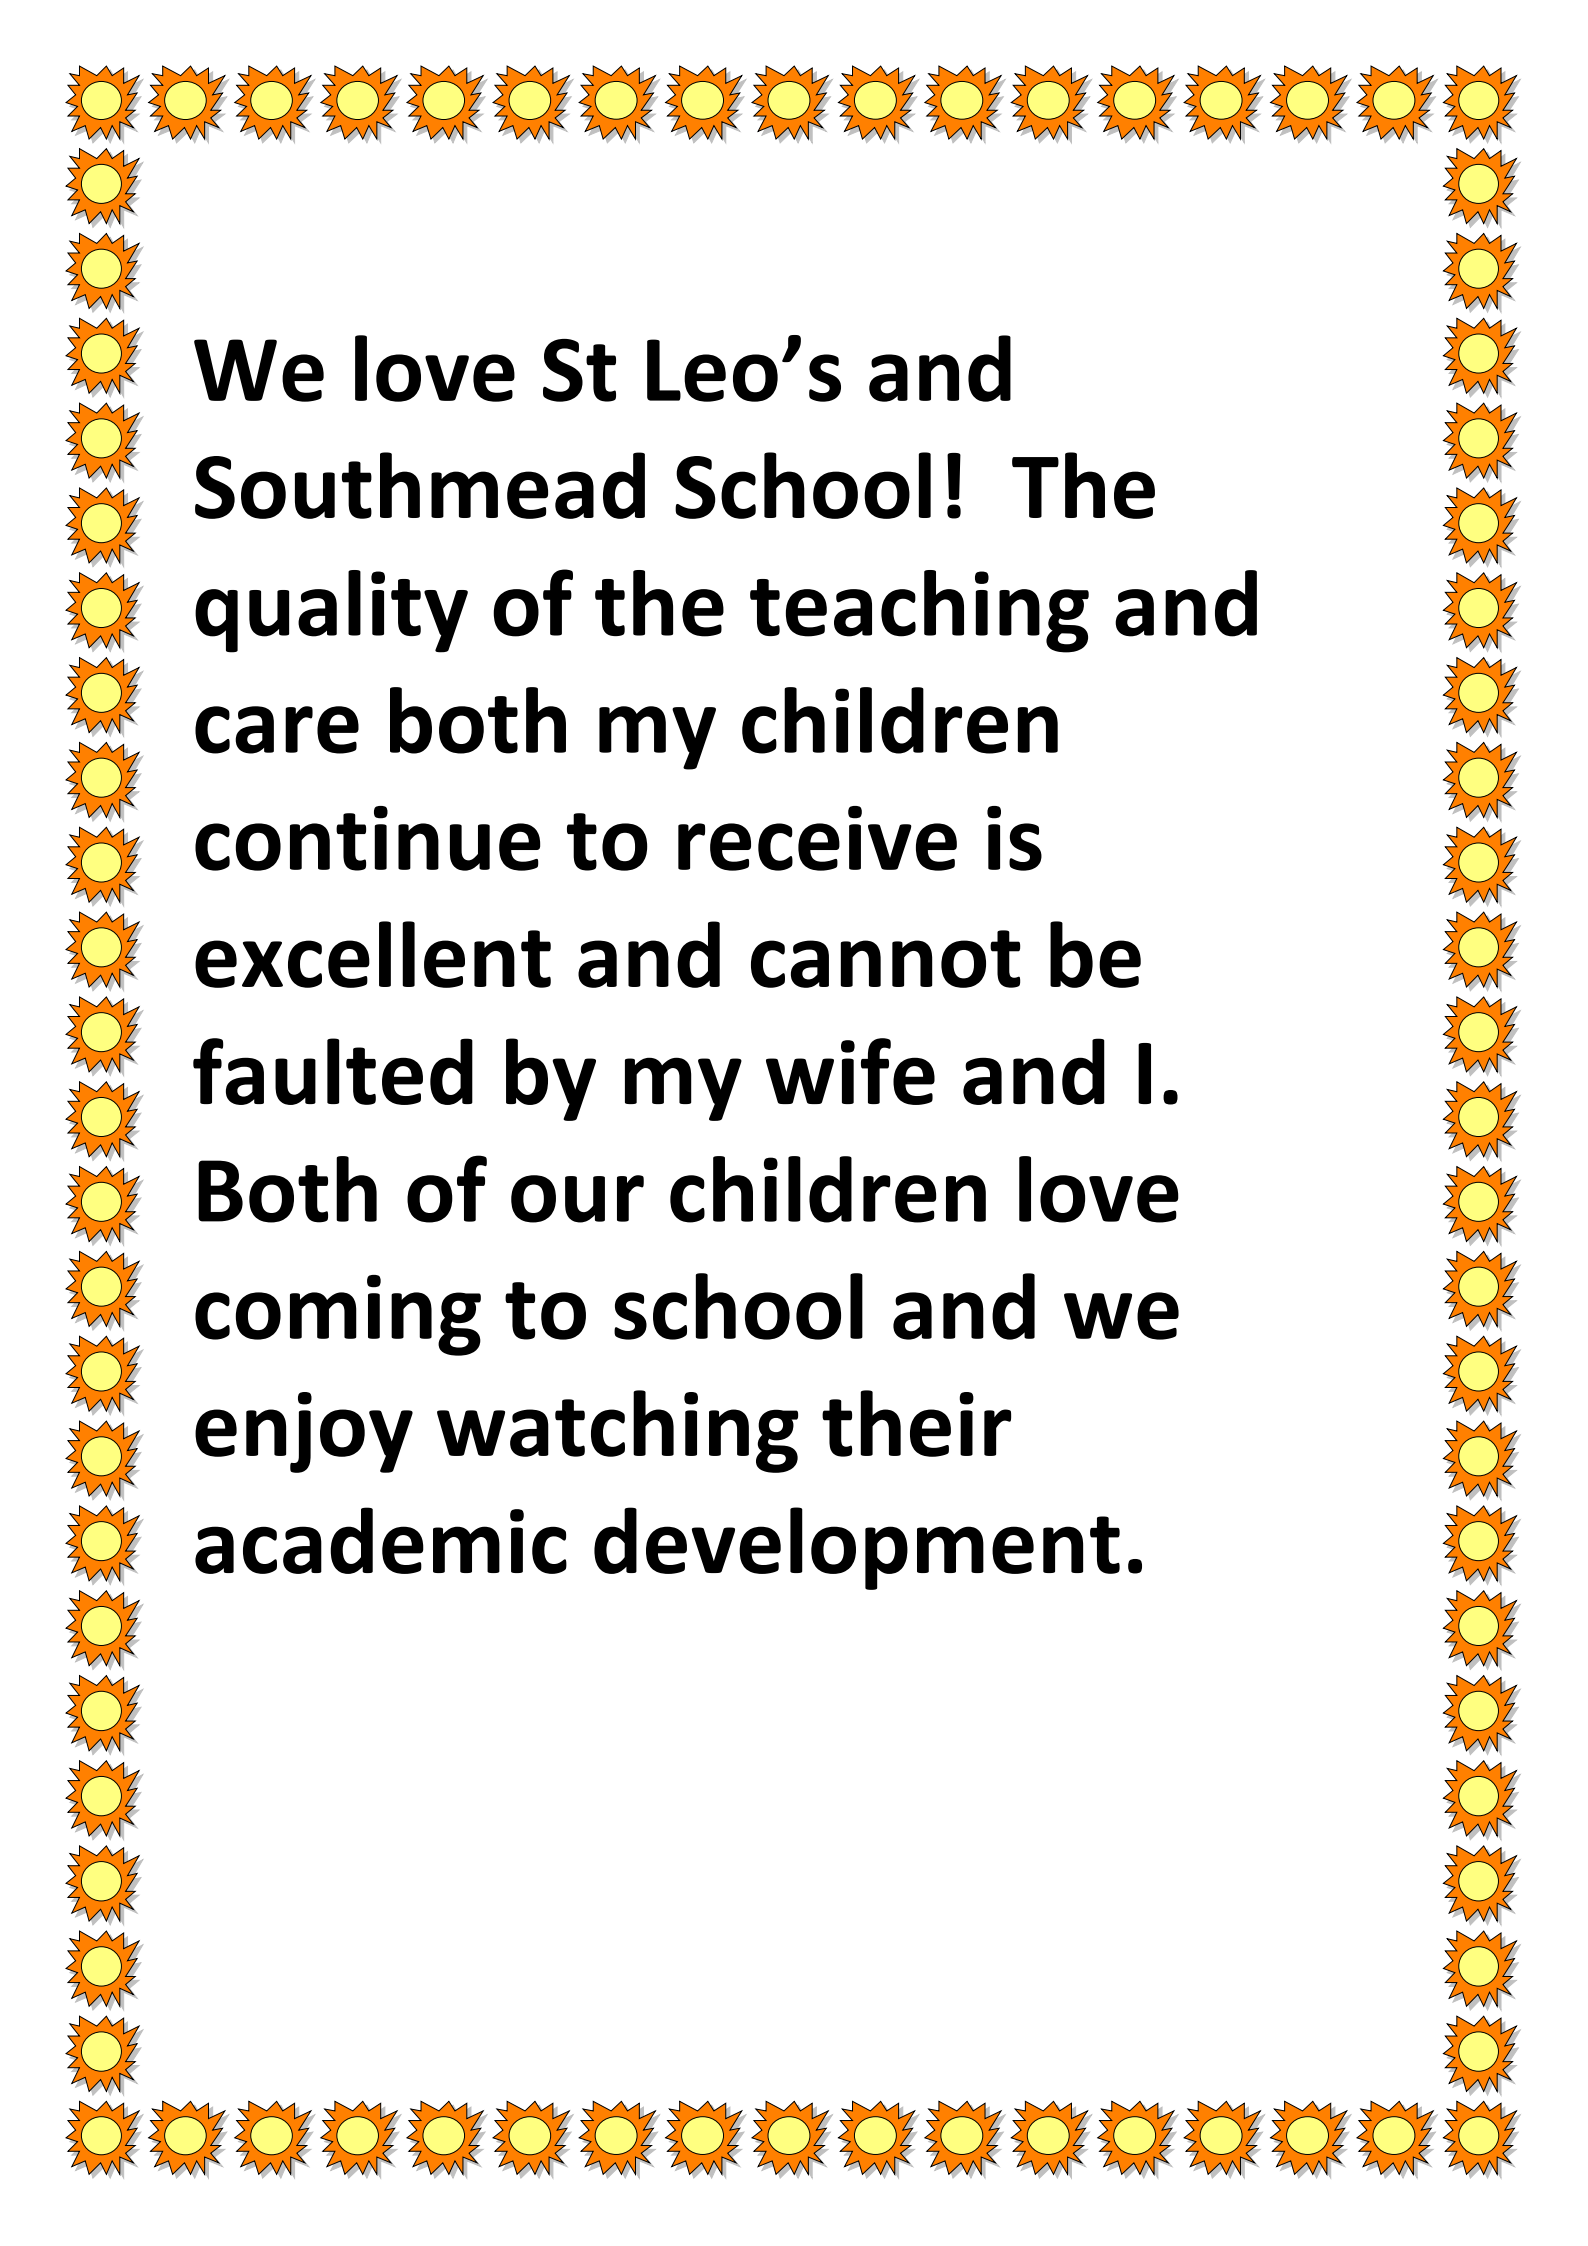

We have no issues or areas for concern at all, we have never had to make a complaint or even been dissatisfied with any aspect.

St Leo's is very good at keeping parents informed. I always enjoy parent's evening so we can be updated about our daughter's progress and hear the positive feedback about her behaviour and progression.

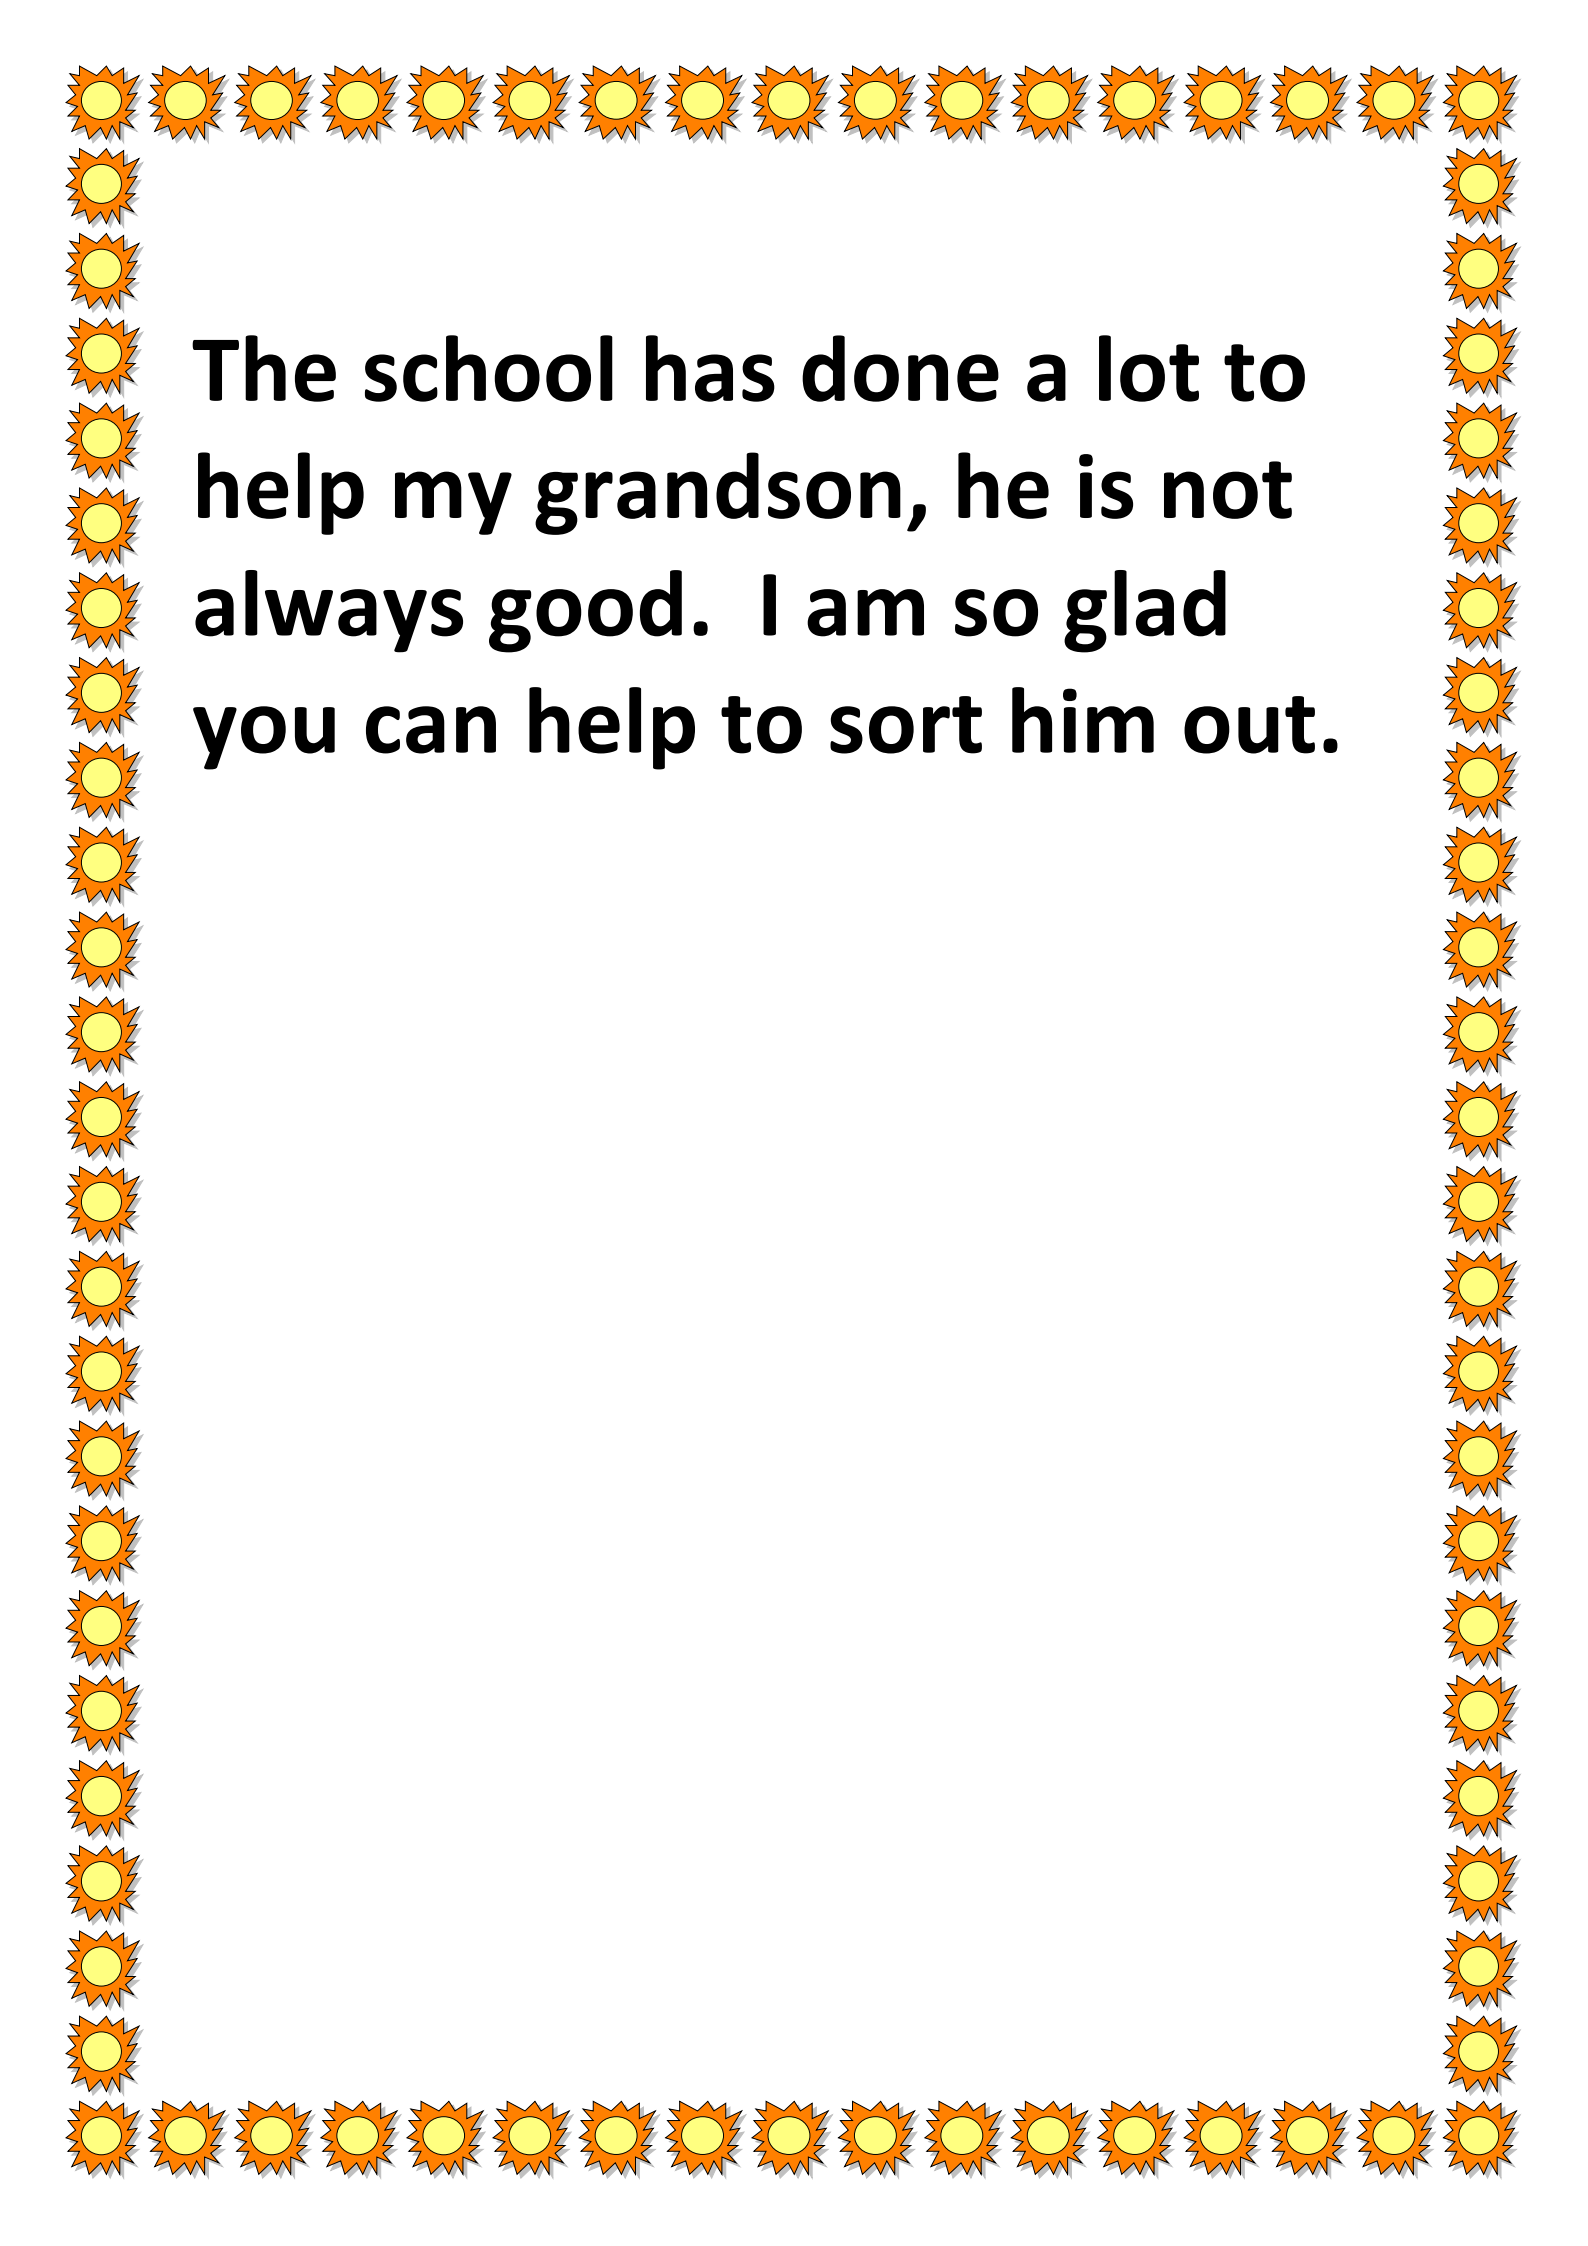

All in all, very happy with the school in general.

**Thanks to all the hard-
working teachers; I truly
appreciate your dedication to
our kids.**

We love St Leo's and Southmead School! The quality of the teaching and care both my children continue to receive is excellent and cannot be faulted by my wife and I. Both of our children love coming to school and we enjoy watching their academic development.

The school has done a lot to help my grandson, he is not always good. I am so glad you can help to sort him out.

**How have our parents helped us to
continue to improve our school?**

By suggesting the following:

- **To use our Text Messaging Service to remind everyone about Theme Days.**
- **To remind parents/carers of older children of the correct time to arrive onto the junior playground and that they must be supervised by parents/carers.**
- **To put on our Website what the children will be taught in each class.**

Great suggestions – Thank you.
