Amazing Activities

As a class create a presentation to explain how to make something for use in the Reception Class.

Key Concepts

Overview: In this activity, the children will learn to use presentation software and develop their keyboard skills in order to present their ideas. They will learn why it is crucial to present ideas in a well thought out format. The children will create a presentation about their own use of technology and why it is important we take a healthy balanced approach. Lastly, the children will have the opportunity to showcase their digital skills and independently create a short presentation about themselves.

- A presentation can be made over a period of time
- Changes to a presentation can be saved and retrieved at a later date
- A variety of media can be uploaded to a presentation, for example, images, web links, data, sound and animation
- Everyone should have a healthy balanced approach to the amount of time spent on technology.

Presentations and Typing

Skills

- Save, share and retrieve my digital work.
- Use technology to organise and present my ideas
- Create with technology. E.g. Video, animation, 3D
- I can collect and record data purposefully.

Curriculum Links

Literacy Link: - understanding of a range of vocabulary which may have more than one meaning
Maths - statistics

Key Vocabulary

Template - a preset format for a document or file

Presentation - shows information normally in the form of a series of slides

Chat - to talk informally

Input - Any information or data sent to a computer (eg, from a keyboard)

Landscape - orientation of a document

Copyright - Published work that cannot be copied without asking permission from the person who wrote it.

Data - Information processed or stored by a computer

Publish - make available online

Download - to copy data from one computer source to another

WWW - World Wide Web

Software - the programs and other operating information used by a computer.

Images - a picture displayed on a screen

Browse - reading and scanning through data
