Amazing Activity
Ambition week—people to
talk to children about
their jobs

Key Concepts

Jobs and why they are important. Without money it is extremely difficult to survive in the world.

Jobs are grouped into sectors, such as emergency services, armed forces, education

Industries in the UK. Businesses provide goods and services and are often started by 1 or 2 people.

People who also work in other countries. Some countries industry is determined on the climate.

Unemployment and its effects Some people who don't work find it hard to support themselves and their families

Children around the world who earn a living to help their families who don't have enough money. Some children work instead of going to school

Some people choose jobs they feel are very important, such as jobs looking after people or animals.
